- Learners are to supply PPE Clothing – long shirt, long pants, closed in shoes
- Must have the physical capabilities to access and operate forklift truck

COURSE OVERVIEW

This unit specifies the skills and knowledge required to operate a forklift truck safely. A forklift truck means a powered industrial truck equipped with lifting media made up of a mast and an elevating load carriage to which is attached a pair of fork arms or other arms that can be raised 900 mm or more above the ground but does not include a pedestrian-operated truck or a pallet truck. This unit requires a person operating a forklift truck to plan the work, conduct routine checks on a forklift truck, shift loads in a safe manner, and safely shut down and secure equipment after completing operations.

This unit largely focuses on a practical training approach to ensure participants are provided with an engaging training experience with the required knowledge and skills to safely and confidently operate a forklift truck.

*Learners must meet a level of practical ability before undergoing a Workplace Health & Safety Queensland licensing practical assessment on the final day of the work ready program. Should the trainer feel a learner requires further practical training after undergoing a skill pre-assessment, the learner may be required to return to the facility at the next available date to complete additional practical training session(s) before undergoing their final practical licensing assessment. Should this be required, a re-attendance fee may apply.

LICENCING ASSESSMENTS

Should a learner receive a *Not Yet Competent* result during any licencing assessment, they will be provided the opportunity to re-sit the assessment at a suitable time, a re-assessment fee may apply.

COURSE OUTCOME

Upon successful completion, the learner will be issued a nationally recognised Statement of Attainment and the required paperwork to apply for a Workplace Health & Safety Queensland high-risk licence class, LF.

OBTAINING A LICENCE

Learners are required to submit an online application to Workplace Health & Safety Queensland whom will issue a High-Risk Work Licence. This application must be lodged within 60 days after the date of the successful assessment. Any additional fees associated with this licencing requirement are at the expense of the applicant. Century Training will provide further instructions on this process upon completion of training.

RECOGNITION OF PRIOR LEARNING (RPL)

Workplace Health and Safety does not allow full RPL of High Risk Licences. All learners must complete the licensing theory and performance assessments. However, if suitable documented evidence is provided of prior operations, the applicant may be able to use that evidence to modify the training needed to achieve competency. Century Training in conjunction with Workplace Health & Safety require sufficient evidence of this experience. Expired Licences and Licences from overseas jurisdictions are not recognised for full RPL, the assessment process must still occur. Enquire for further information on RPL.

LANGUAGE, LITERACY & NUMERACY SUPPORT (LLN)

Language, literacy and numeracy requirements for this course require the learner to be able to read, comprehend and write a limited range of texts in a familiar context. It also requires the learner to carry out basic mathematical calculations. Century Training offers strategies to assist learners who may require support in these areas. Should a learner feel they may require assistance in these areas, please notify the Training Coordinator prior to enrolment to discuss these options further. Further information on Language, Literacy & Numeracy support and other support services can be found within the RTO Information Handbook, located on our website.
